Labor Solicits Public Comments on Certified Payrolls

JUNEAU, Alaska—The Alaska Department of Labor and Workforce Development is considering a change in the reporting requirements for certified payrolls submitted under AS 36.05.040 for work on public construction contracts.

The change would require contractors who submit hard-copy certified payrolls to include the Worker's Compensation Insurance classification codes as reported to the contractor's Worker's Compensation Insurance carrier for work performed on a public construction project.

The change would provide a mechanism to help ensure compliance with Alaska's Worker's Compensation laws and to help promote a level playing field for contractors bidding on public construction projects.

The department is seeking public comments to assess the impacts of this proposed additional reporting requirement. Comments may be submitted no later than Sept. 30 by email Tina.StClair@Alaska.Gov or to the address below.
